

# COVID-19 Related Deaths in Wyoming

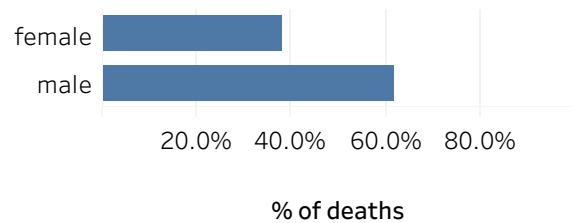

50

deaths

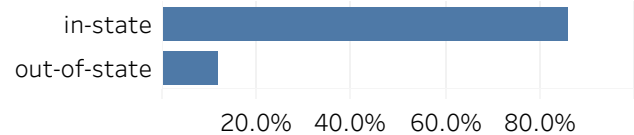

| 2:25 PM Wednesday, September 23, 2020 | [Click here to return to dashboard](#)

Deaths count towards the Wyoming COVID-19 related death total based on the location of the person’s permanent residence. Permanent residence is from the official death certificate. This total includes only persons with a permanent residence in Wyoming. Wyoming residents who die in other states are not counted in both states. If the death certificate does not list COVID-19 as causing or contributing to the death, then it is not included in the COVI..
